

Material Safety Data Sheet

CS: 1.4.22

Page: 1 of 4

Infosafe No™ LPXKT Issue Date :September 2008 ISSUED by PENRITEO

CS: 1.4.22

Product Name : **EXTREME PRESSURE GREASE**

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name EXTREME PRESSURE GREASE
Product Code EPGR
Company Name PENRITE OIL COMPANY P/L (ABN 25005 001 525)
Address 88 Lewis Road Wantirna South
Victoria 3152 Australia
Emergency Tel. 03 9801 0877 B.H
Telephone/Fax Number Tel: 03 9801 0877
Recommended Use Multi purpose grease for heavy duty applications

2. HAZARDS IDENTIFICATION

Hazard Classification NON-HAZARDOUS SUBSTANCE.
NON-DANGEROUS GOODS.
Hazard classification according to the criteria of NOHSC.
Dangerous goods classification according to the Australia Dangerous Goods Code.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	Name	CAS	Proportion
	Distillates (petroleum), solvent dewaxed, heavy paraffinic	64742-65-0	30-<60 %
	Solvent-dewaxed petroleum residual oil	64742-62-7	10-<30 %
	Distillates, petroleum, solvent dewaxed light naphthenic	64742-64-9	0-<10 %
	Ingredients determined not to be hazardous	Not required	Balance

Other Information Note: Ingredients that have been assigned Note L of the Worksafe designated List of Hazardous Substances, have been tested in accordance with IP 346. This product contains less than 3% polyaromatics and is therefore non hazardous.

4. FIRST AID MEASURES

Inhalation If inhaled, remove affected person from contaminated area. Apply artificial respiration if not breathing. If symptoms develop seek medical attention.

Ingestion Do NOT induce vomiting. Wash out mouth with water. If symptoms develop seek medical attention.

Skin If contact with skin occurs, wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse or discard. If symptoms develop seek medical attention. Injection of grease under the skin may result in serious injury. Seek medical attention at once.

Eye If in eyes, hold eyelids apart and flush the eyes immediately with running water. Continue flushing for several minutes until all contaminants are washed off completely. Seek medical attention.

First Aid Facilities Eye wash and normal washroom facilities.

Advice to Doctor Treat symptomatically.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media Carbon dioxide, dry chemical and foam.

Material Safety Data Sheet

CS: 1.4.22

Page: 2 of 4

Infosafe No™ LPXKT	Issue Date :September 2008	ISSUED by PENRITEO	CS: 1.4.22
--------------------	----------------------------	--------------------	------------

Product Name : **EXTREME PRESSURE GREASE**

Hazards from Combustion Products	Under fire conditions this product may emit toxic and/or irritating fumes including oxides of sulphur, phosphorous, zinc, nitrogen, carbon monoxide and carbon dioxide.
Specific Hazards	Combustible material.
Precautions in connection with Fire	Fire-fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode. Water spray may be used to keep fire exposed containers cool.

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures	Wear appropriate personal protective equipment and clothing to minimise exposure. Extinguish or remove all sources of ignition and stop leak if safe to do so. Increase ventilation. Evacuate all unprotected personnel. If possible contain the spill. Spillage could be slippery. Place inert, non-combustible absorbent material onto spillage. Use clean non-sparking tools to collect the material and place into suitable labelled containers for the subsequent recycling or disposal. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water authorities and EPA in accordance with local regulations.
-----------------------------	--

7. HANDLING AND STORAGE

Precautions for Safe Handling	Use in a well ventilated area. DO NOT store or use in confined spaces. Do not use near welding or other ignition sources and avoid sparks. Do not smoke. When dealing with large quantities, repeated or prolonged skin exposure without protection should be prevented in order to lessen the possibility of skin disorders. Practice good personal hygiene, that is, always wash hands after handling, and before eating, drinking, smoking or using the toilet facilities.
Conditions for Safe Storage	Store in a cool, dry well-ventilated area away from heat, sources of ignition, oxidising agents, foodstuffs, and clothing and out of direct sunlight. Keep containers closed when not in use and securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks. Do NOT pressurise, cut, heat or weld containers as they may contain hazardous residues. For information on the design of the storeroom, reference should be made to Australian Standard AS1940 - The storage and handling of flammable and combustible liquids. Reference should also be made to all State and Federal regulations.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards	No exposure standards have been established for this material, however, the TWA National Occupational Health And Safety Commission (NOHSC) exposure standards for oil mist is 5 mg/m ³ . As with all chemicals, exposure should be kept to the lowest possible levels. TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.
Biological Limit Values	No biological limit allocated.
Engineering Controls	Special ventilation is normally not required. Where vapours or mists are generated, particularly in enclosed areas, a local exhaust ventilation system should be provided to maintain the levels below the standard. Refer to AS1940 - The storage and handling of flammable and combustible liquids and AS2430 - Explosive gas atmospheres for further information concerning ventilation requirements.
Respiratory Protection	If mists or vapours are generated and ventilation is inadequate, particularly in enclosed areas then an approved respirator with a replaceable organic vapour/mist filter is recommended. Final choice of appropriate breathing protection is dependant upon actual airborne concentrations and the type of breathing protection required will vary according to individual circumstances. Expert advice may be required to make this decision. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices.

Material Safety Data Sheet

CS: 1.4.22

Infosafe No™ LPXKT	Issue Date :September 2008	ISSUED by PENRITEO	CS: 1.4.22
--------------------	----------------------------	--------------------	------------

Product Name : **EXTREME PRESSURE GREASE**

Eye Protection	Safety glasses with side shields, goggles or full-face shield as appropriate recommended. Final choice of appropriate eye/face protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.
Hand Protection	Wear gloves of impervious material such as nitrile. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.
Body Protection	Wear appropriate clothing including chemical resistant apron where clothing is likely to be contaminated. It is advisable that a local supplier of personal protective clothing is consulted regarding the choice of material.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Smooth tacky dark brown grease.
Odour	Not available.
Melting Point	Not available
Boiling Point	>316°C
Solubility in Water	Not miscible
pH Value	Not available
Vapour Pressure	Not available
Vapour Density (Air=1)	Not available
Viscosity	220 cSt at 40°C 17.0 cSt at 100°C
Dropping Point	190°C
Density	0.9 g/mL at 15°C
Flash Point	>200°C (CC)
Flammability	Combustible material
Flammable Limits - Lower	Not available
Flammable Limits - Upper	Not available

10. STABILITY AND REACTIVITY

Chemical Stability	Stable under normal conditions of storage and handling.
Conditions to Avoid	Heat, direct sunlight, open flames or other sources of ignition.
Incompatible Materials	Strong oxidising agents.
Hazardous Decomposition Products	Thermal decomposition may result in the release of toxic and/or irritating fumes including oxides of sulphur, phosphorous, zinc, nitrogen, carbon monoxide and carbon dioxide.

11. TOXICOLOGICAL INFORMATION

Toxicology Information	LD50 (Oral, rat) : > 2000 mg/kg LD50 (Dermal, rabbit) : > 2000 mg/kg
Inhalation	Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.
Ingestion	Ingestion of this product may irritate the gastric tract causing nausea and vomiting.
Skin	May cause redness, itching and irritation. Injection of grease under the skin may result in serious injury.
Eye	May cause eye irritation, tearing, stinging, blurred vision, and redness.

Infosafe No™ LPXKT	Issue Date :September 2008	ISSUED by PENRITEO	CS: 1.4.22
--------------------	----------------------------	--------------------	------------

Product Name : **EXTREME PRESSURE GREASE**

Chronic Effects Repeated or prolonged skin contact may lead to dermatitic effects and/or drying of the skin.

12. ECOLOGICAL INFORMATION

Ecotoxicity No data is available for this material.

Persistence / Degradability Not available

Mobility Not available

Bioaccumulative Potential Not available

Environ. Protection Do not allow product to enter drains, waterways or sewers.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.

14. TRANSPORT INFORMATION

Transport Information Not classified as a Dangerous Good, according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

15. REGULATORY INFORMATION

Regulatory Information Not classified as Hazardous according to criteria of National Occupational Health & Safety Commission (NOHSC), Australia.
Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).

Poisons Schedule Not Scheduled
