

# HIGH TEMPERATURE WHEEL BEARING GREASE

**Codes:** HTGR00045, HTGR0005, HTGR0025, HTGR020, HTGR055, HTGR180

**Issue:** October 2011

An NLGI No 2 purple coloured, high temperature all-purpose grease manufactured from high quality base oils and a lithium complex soap. It utilises a special borated additive system for effective extreme pressure performance and anti-wear protection.

## Application

High Temperature Wheel Bearing Grease is suitable for use in all general grease applications in automotive and industrial service, including in cars, trucks and buses.

It is particularly suitable for use in wheel bearings of vehicles fitted with disc brakes and boat trailer wheel bearings and in other marine applications.

It is also a highly effective industrial grease and may be used in plain bearings, slow speed anti-friction bearings, as a chassis grease, general plant lubrication and in agricultural and construction equipment lubrication.

## Customer Benefits

- Protects against shock loadings.
- Excellent resistance to water wash out.
- Protects against rust and corrosion, even in salt water.
- Long service life.
- Lead and chlorine free.
- Excellent mechanical stability

## Industry Specifications

NLGI 2	DIN 51502	ISO 6743	KP2N-30
ISO-L-XCDIB2	Volvo 97720 (level)		

## Typical Data

Appearance	Purple
Soap Type	Lithium Complex
NLGI Grade	2
Drop Point, °C	275
Base Oil Viscosity, ISO	220
Timken OK Load, kg	23
4-ball Weld Load, kg	620
Continuous Operating Temperature, °C	-15 to +170
Maximum Temperature, Intermittent use, °C	200

PENRITE

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. A MSDS is available on request.
